

Data Sheet - the MAT

Need to turn your motorcycle around in a constricted space?

Got a centre stand?

Then why risk struggling, damaging the bike, or, worse still, having it fall on you? Simply use The MAT from Movetech UK - an inexpensive and versatile turntable suitable for motorcycles with a centre stand.

Available in two sizes, 35cm and 45cm in diameter (the MAT350 and MAT450 respectively), the MAT can be used to turn almost any motorcycle with a centre stand*

All you do is:

- > Lower the centre stand on to the MAT
- > Balance the motorcycle so that both wheels are off the ground
- > Rotate it gently
- > Job done!

*Recommended maximum load 300kg

The MAT is robust, strong and durable, with good resistance to chemicals; it's also weatherproof, genuinely low maintenance and, importantly, totally portable – it will even fit into most motorcycle panniers.

Customer Quotes:

"There is nothing easier. It's the perfect solution at a great price."

- Amy

"This product has changed my life. No more 6-point turns in the garage. No more trying not to damage the freezer. Just amazing!"

- David Stevens

"The MAT is fantastic. It does exactly what it says on the tin! It (quite literally) turns the 10-minute, 9-point turn, grunt and shove hassle of putting my bike away in the garage into a 2-minute glide."

- BMW owner, Dean Miller

"The MAT makes it easy to turn my bike around in seconds. Within the confines of my garage there is no other option. And Movetech UK's customer service is nothing short of exceptional!"

- Honda Owner, Andrew Ingram
