

Maxi Plus Lightweight Carousel 0.7m diameter Display Turntable

The Maxi Plus Lightweight (D-006-MP700-LT) carousel turntable is a compact, lightweight unit well suited to the photography and video industry. The unit allows for simple, yet unique, 360-degree images and videos to be taken - without the need for the object/person to be manually moved or adjusted.

Whether your project requires you to take 360-degree videos of a product/object or maybe you're a photographer looking for an effortless way of taking multiple photos of a model from various angles - whatever your need, a Movetech UK revolving turntable is certainly a great solution.

The D-006-MP700-LT turntable allows for loads or displays up to 1m in diameter, 2.4m in height and has a maximum distributed load capacity of up to 200kg.

Ideal for videoing & photographing people or products!

Up to 2.4m
Maximum Display Height

Up to 200kg
Maximum Display Capacity

 **PLEASE NOTE:** Maximum display properties assume an evenly distributed load.
